## KEY BENEFITS

### ENGINEERS

- Reliability of all systems verified by third party testing
- Simplicity of design eliminates potential for performance problems
- Solid vandal-proof design is ideal for schools and public facilities

### CONTRACTORS

- Pre-assembled for fast installation (S-9010 batteries need to be installed)
- No adjustments necessary
- Power source easily converted from AC to DC

### DISTRIBUTORS

- Integrated options as standard reduces number of SKUs
- Enhanced inventory program provides fast shipment of all orders
- High level of customer satisfaction reduces returns

### FACILITIES

- All above counter maintenance for fast and simple servicing
- All components secured within spout preventing vandalism and theft
- Filter system and solenoid repair kit keep servicing costs to a minimum

## MODELS

- S-9010 Battery Powered
- S-9020 AC Powered

## OPTIONS

- HS Two stainless steel braided supply hoses
- HTS One supply hose
- LF Laminar flow outlet
- PVD Brass PVD finish
- TMV Under-counter thermostatic mixing valve
- VRS Vandal resistant screws for cover

## FEATURES

- Pre-assembled for simple, fast installation
- All maintenance performed above counter
- All metal housing
- Fully recessed and vandal proof aerator
- Product supplied with both 0.5 and 2.2 GPM outlets
- Lengthened spout reduces splashing
- Cover allen screws hidden from normal view
- Long life Duracell Lithium batteries (S-9010 only)
- Both battery power and AC power models
- Easy conversion from AC to DC and DC to AC
- Sensor lens recessed and secured
- Low battery warning light
- Long life Speakman designed solenoid valve
- Solenoid repair kit available for low-cost servicing
- Integral check valves on hot and cold sides
- Filter for both hot and cold water supplies
- Filter easily reached and cleaned above counter
- Mechanical mixing valve for pre-set temperature blending
- AC transformer wire (S-9020 only) covered with stainless steel jacket
- AC transformer wire (S-9020 only) 24" long for behind wall plug connection
- Dual post design for secure fastening
- Cap provided for tempered water installations
